ABOUT ME

Developer with a associate degree in Programming and currently completing a bachelor's degree in Applied Computer Science. I build web applications using React, Next.js, TypeScript, and C#/.NET, with a strong interest in UI/UX and AI. I am taking my final three courses through evening classes, which means I am available for full-time work.

LANGUAGES

- Dutch - Native language
- English - Good
- French - Fair

HOBBIES

- Fitness
- Cycling
- Running
- Fishing
- Design/Web development

TOOLS

- VSCode
- Figma
- Visual Studio
- IntelliJ
- Git
- OpenAI
- Claude
- Docker

EXPERIENCE

Bachelor's Thesis **Springbok Agency**: 02/2026 – 06/2026

- Research into AI applications for dependency management

Internship **Elision**: 02/2024 – 05/2024

- Programming an internal project management tool

Internship **ATS Groep**: 2022

- Electrical wiring and assembly of electrical cabinets

Student Job **Velleman & ATS Groep**: 2021 – 2026

- Warehouse worker, electrical wiring, and assembly of electrical cabinets

PROJECTS

DepGuard AI: Bachelor's thesis for Springbok Agency (2026)
An AI dashboard that analyzes dependency updates from GitHub repositories, providing summaries that include breaking changes, migration steps, and risk assessments. I evaluated three AI implementations (Mastra, n8n, and OpenAI) using an "LLM-as-a-Judge" benchmarking approach.
Next.js · TypeScript · Supabase/PostgreSQL · Mastra AI · OpenAI · Tailwind

Inkling: Job application project (2026)
A live, multiplayer drawing and guessing game built for the browser, featuring real-time drawing and chat, with server-side scoring secured against cheating.
Next.js · TypeScript · Supabase Realtime · Edge Functions · Tailwind

FIFA World Cup 2026 Team Prediction: Academic project (2026)
A full-stack web application where users form teams and predict the outcomes of World Cup matches, featuring role-based security and a comprehensive test suite.
Java · Spring Boot · Spring Security · JPA/Hibernate · MySQL

EDUCATION

Secondary Education:

- **Industrial ICT** 2016 – 2022 **GO! Atheneum**

Higher Education:

- **Associate Degree in Programming** 2022 – 2024 **HoGent**
- **Bachelor's Degree in Applied Computer Science** 2024 – 2027 **HoGent**

SKILLS

Frontend:

- HTML, CSS
- JavaScript, TypeScript
- React, Next.js
- Tailwind

Backend:

- C#, ASP.NET
- Entity Framework
- Java, Spring Boot
- Node.js

Databases:

- MySQL
- MongoDB
- PostgreSQL
- Supabase
